

Louisville Public Schools Daily School Screen Diagram

Symptomatic Staff / Student With A Positive Covid-19 Test

Ensure student/ staff has a mask (if tolerable) and escort them to isolation room to be sent home as soon as possible.

Identify and locate all household members.

Send student/staff and household members home, as household members would be considered “in close contact”. Engage in remote learning until return.

Positive test - Exclude for at least 10 days since symptom onset appeared **AND** at least 24 hours with no fever, without fever reducing medicine **AND** symptoms have improved

Household members could be excluded for 10-14 days without test, or alternate diagnosis from a medical professional

Symptomatic Staff / Student Not Tested

Ensure student/ staff has a mask (if tolerable) and escort them to isolation room to be sent home as soon as possible.

Identify and locate all household members.

Send student/staff and household members home, as household members would be considered “in close contact”. Engage in remote learning until return.

Symptomatic, not tested - Exclude for at least 10 days since symptoms onset appeared **AND** at least 24 hours with no fever, without fever reducing medicine **AND** symptoms have improved.

May return to school if a doctor establishes an alternate diagnosis, presents a doctor’s note that confirms the presence of an alternate diagnosis, explaining the symptoms. Household members in close contact could be excluded and quarantined for up to 10-14 days without a test or verifying doctor’s note.

Symptomatic Staff / Student With A Negative Covid-19 test

Ensure student / staff has a mask (if tolerable) and escort them to isolation room to be sent home as soon as possible.

Identify and locate all household members.

Send student and household members home, as household members would be considered “in close contact”. Engage in remote learning until return.

Symptomatic staff/student who tests negative: Exclude until fever free for 24 hours (or meets the schools’ requirements for readmission) **AND** improved respiratory symptoms. Once symptomatic individual(s) receives a negative test result, all household members may return to school.
